MERGER DECISIONS

ANNUAL REPORT TO CONGRESS

Bank Merger Act Reporting Requirements
(Friday, January 01, 2016 through Saturday, December 31, 2016)

All of the following Merger applications were approved by the FDIC during the year 2016. With regard to each application, the FDIC considered and found favorably with respect to the statutory factors, including the financial and managerial resources; future prospects of the existing and proposed institutions; the convenience and needs of the community to be served; the risk to the stability of the United States banking and financial system; and the effectiveness of each depository institution involved in the merger in combating money laundering activities, including in overseas branches.

Except as noted, reports regarding the competitive factors were requested from the Attorney General, and Summary Reports from the Attorney General indicated that the transactions would not have a significant adverse effect on competition.

In each case, the FDIC determined that the transaction would not result in a monopoly or further any combination or conspiracy to monopolize or attempt to monopolize the business of banking in any part of the United States. In addition, the FDIC determined that the transaction would not have the effect in any section of the country to substantially lessen competition or tend to create a monopoly or in any other manner restrain trade, unless the anticompetitive effects of the transaction were clearly outweighed in the public interest by the probable effect of the transaction in meeting the convenience and needs of the community to be served.

Finally, the FDIC determined that, for each interstate merger case (other than a case involving an insured institution in default or in danger of default), the resulting insured institution, including its affiliated insured institutions, upon consummation of the transaction would not control more than ten percent (10%) of the total amount of deposits of all insured depository institutions in the United States.

Note: Additional copies of this Report can be downloaded from the FDIC's Public Information Center's web site at: www.fdic.gov/bank/individual/merger/

Note 2: An "Interim Merger" is a merger between an operating institution and a newly formed institution that will not open for business, and which exists solely for the purpose of facilitating the merger transaction. With respect to transactions intended to facilitate a corporate reorganization, the responsible agency need not request a report of competitive factors from the Department of Justice. For all other transactions, the date of the Competitive Factors Report is provided.

Failed or Closed Bank Mergers (Page 1 of 1, of 4 records)

Data Date(s) 01/01/2016 to 12/31/2016

Note 3: The "Other Institution" is an institution that failed during 2016. The respective "Applicant Institution" is the competitive bidding winner to purchase certain assets and assume the liabilities to pay certain deposits of the "Other Institution." The FDIC's Board of Directors found that immediate action was necessary, and therefore, the publication of notice and solicitation of reports on the competitive factors were not required. Thus, there is no "Department of Justice Reply Date," nor an "Application Number."

If the "Applicant Institution" is a non FDIC-supervised financial institution, the Primary Federal Regulator processed that merger application, and that application is not included in the FDIC's annual merger report.
